In a world in which conversation among adults is eroding, with social alienation and fragmentation (due to corporate overreach) at disastrous levels, John Bredin imagines a radically different world. A world in which dialogue merges with utopia in a mutual dance toward a new golden age. Building on the work of great dialogic thinkers like Martin Buber, Paulo Freire, and his mentor Maxine Greene--the noted education philosopher--Bredin seeks nothing less than the radical reorganization of society itself.along more ethical lines.one conversation at a time. Hollywood and Broadway will play a major role in realizing Bredin s dreamed about dialogic utopia, or so he interprets the real life fairy tale which gives him a biographical link.via America s greatest forgotten actress, Blanche Walsh. to the unknown political origin of Hollywood; and to Broadway at its best. Read this book and enter a world of radical transformation and magical possibilities, toward the creation of the utopian world we all want--but are wrongfully told by propagandists for the status quo is unrealistic.
