Forgotten Books. Paperback. Condition: New. This item is printed on demand. 188 pages. Dimensions: 9.0in. x 6.0in. x 0.4in. Excerpt from Modern Geometry The present volume is a sequel to the Elementary Geometry written by the same authors. It covers the schedule of Modern Plane Geometry required for the Special Examination in Mathematics for the Ordinary B. A. Degree at Cambridge; and represents what we take to be a useful course for any student of Mathematics, whether he intends to read for Mathematical Honours, or to take up Physics or Engineering. For those who ultimately make a special study of Geometry, this book would serve as an introduction to more advanced treatises. Our experience tends to show that boys find no little difficulty, at the outset, in mastering the ideas of Modern Plane Geometry; and, especially, in solving the problems usually set. We have therefore put in a number of quite easy exercises, arranged to lead by easy stages to the Scholarship questions at the end of Chapters. We have to thank Mr H. M. Taylor for permission to use some of the exercises included in his edition of Euclid. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. This item ships from La Vergne, TN. Paperback.
